

# Colegio Sagrado Corazón de Jesús

Erasmus + Project : 2014-1-ES01-KA101-002752

**ACTIVITY TITLE:** PLAYING WITH NUMBERS

**SUBJECT:** MATHEMATICS

**AIM OF THE ACTIVITY:** Content (Boost and increase their vocabulary related to numbers 1-10) Cognition (Thinking, set the numbers in a number line) Communication (use the numbers and use the expression: numbers are needed for \_\_\_ ) Culture: ( Importance of the numbers in our life)

**ESTIMATED DURATION:** 45 minutes session.

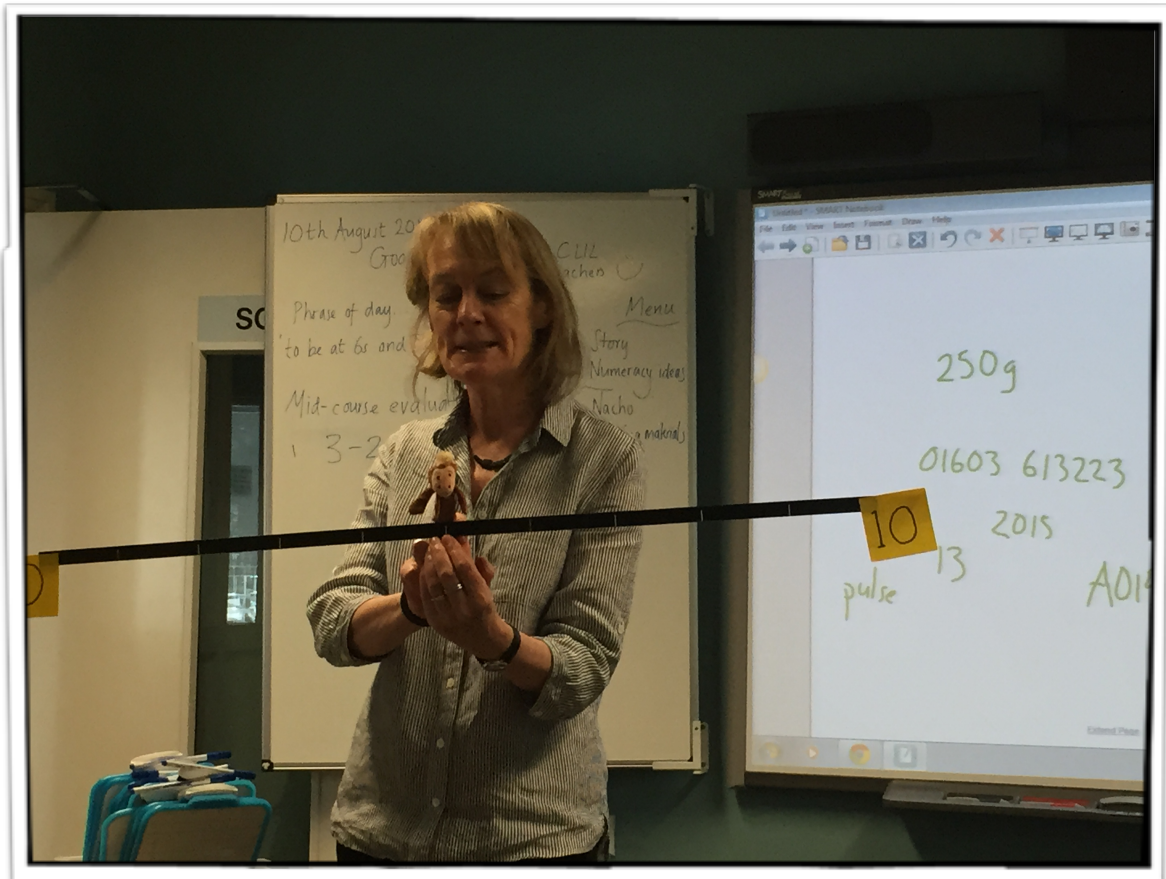

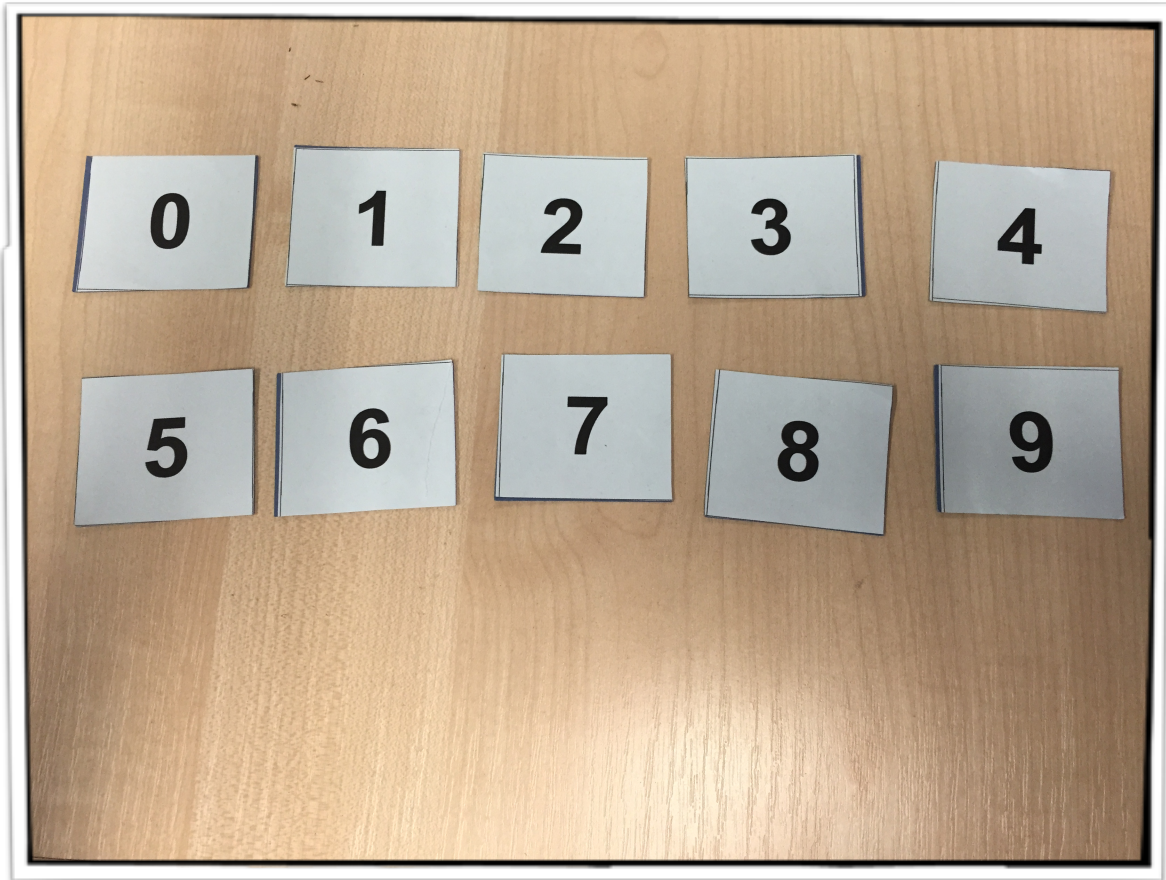

**MATERIALS NEEDED:** Envelopes with card numbers (0-9), Number line, 1 puppet, big papers with the name of the numbers.

**ATTACHED DOCUMENTS:** Example photographs.

**SUGGESTED LEVEL:** 1st Primary

## PROCEDURE

- 1.- Teacher writes different numbers on the blackboard and students have to match (predicting) the numbers with the vocabulary the teacher writes: "250g./ 0,5%/1m50/2015/13/8620 AU... age, plate number, length, date..."
- 2.-Teacher gives one envelope to each student with ten number cards (from 0 to 9) and they have to show him the correct number following a question: "Show me the number five, show me a number greater than 5, show me a number between five and 9..."
- 3.- Teacher shows a number line made on wood or draws it in the blackboard (without numbers, only lines) and a puppet. He ask them questions:"what is the place value of \_\_\_ and the puppet moves into this place.
- 4.- Teacher sets big papers with the names of the numbers on the floor and students (gathered in five people groups) have to step on the paper as quick as they can when the teacher says the number.
- 5.- Teacher asks their students a question: "Are numbers necessary in our lives?" and they have to answer following the structures: " Numbers are needed for \_\_\_ food, number plates, ages..."
