**JOINT COUNCIL OF EUROPE/EUROPEAN COMMISSION DECLARATION
TO MARK THE 10th ANNIVERSARY OF THE EUROPEAN DAY OF LANGUAGES
26 SEPTEMBER 2011**

(SELECTED EXTRACTS)

Respect for cultural and linguistic diversity and language learning for all are fundamental principles of the Council of Europe and of the European Union. The ability to understand and use several languages helps citizens achieve their full potential, both socially and professionally. Language skills are essential for equity and integration. Against the current backdrop of increasing mobility, globalisation of the economy and changing economic trends, the need to learn languages and develop plurilingual and intercultural education is more obvious than ever before.

In 2001 the Council of Europe and the European Commission jointly launched the first European Year of Languages in order to raise awareness about Europe's rich linguistic heritage, to encourage multilingualism in society and to motivate European citizens to learn more languages.

Now Playing

"Voices of Europe"

In every heart, a voice is found,
A melody that knows no bound.
From mountains high to oceans
wide,
Our words unite, our hearts collide.
Through languages, we learn, we
grow,
A world of wonders we come to
know.
Together we sing, together we
strive,
A symphony of tongues alive...
